

Job Title: Data Analyst**Location:** Bengaluru, India (Hybrid)**Experience Level:** 1–3 years**Employment Type:** Full-time

About the Role:

We are looking for a motivated and detail-oriented **Data Analyst** to join our analytics team. You will be responsible for interpreting data, analyzing results using statistical techniques, and providing ongoing reports to help drive strategic business decisions.

Responsibilities:

- Collect, clean, and interpret large datasets from multiple sources
 - Develop and maintain dashboards and visualizations (using tools like Power BI, Tableau, etc.)
 - Work closely with cross-functional teams to identify trends and insights
 - Automate data collection and reporting processes using Python, SQL, or similar tools
 - Present data-driven recommendations to stakeholders and leadership
 - Monitor key performance indicators (KPIs) and assist in business forecasting
-

Requirements:

- Bachelor's degree in Computer Science, Statistics, Economics, or a related field
 - Proven experience as a Data Analyst or similar role
 - Strong knowledge of Excel, SQL, and data visualization tools
 - Basic knowledge of Python or R is a plus
 - Excellent communication and critical thinking skills
 - Attention to detail and accuracy in reporting
-

Nice to Have:

- Experience with cloud data platforms like AWS Redshift, Google BigQuery, or Azure
 - Familiarity with A/B testing and product analytics tools (Mixpanel, GA4)
 - Exposure to machine learning concepts or libraries like Scikit-learn
-

Perks & Benefits:

- Competitive salary and performance bonuses
- Flexible work hours and hybrid work setup
- Health insurance for you and your dependents
- Learning and development budget
- Fun team events, annual offsites, and wellness programs
